

New PennDOT Check Processing Guidelines to take effect January 1, 2017

Per new PennDOT regulations, beginning January 1, 2017, we will no longer be permitted to use the check method as form of payment for the processing of online applications. This pertains to all types of transactions i.e., title/registration transfers, title only, intransits, renewals, etc. All work must now be processed through our EFT process.

This means that customer checks will no longer be accepted and all money, both PennDOT fees and our service fees, must be paid through your dealership.

We are giving you 30 days notice so that you have time to adjust your business practices to allow for this change.

Please call should you have any questions, 215-295-8003.
